

CIG-UN

Wall Mounted Ciglow Lighter Unit without Timer

Mounting Style

This unit is wall mounted and connected to a mains supply through knockouts on either side of the unit. The unit can also be installed into our IP66 rated "CIG-EN66" lockable enclosure for installation outdoors.

Weatherproof Rating

This unit is rated IP44 and is suitable for indoor or covered use unless installed within our IP66 lockable enclosure.

Element

This unit uses the CIG-EL three pin plug-in element.

Operation

The unit is operated by pressing in the push button and holding. The cigarette is inserted once the element glows red.
